

## GOLF COURSE UPDATE

September is always one of the most beautiful months in the LC valley. We are already starting to see temperatures recede and some rain start to fall. The golf course is absolutely loving the weather.

We will be aerifying the greens on September 3-4. The golf course will be closed to play for those two days. We thank you for your patience while we take the necessary steps to keep the greens healthy and smooth. The aerifying process allows water to more easily soak down to the root zone of the grass instead of staying in the top layer of the green. The greens will heal quickly and be back to normal in 2-3 weeks.

We hope you have been enjoying the Pool this summer. It will remain open until September 15. Due to covid, chlorine shortages, and the leak that needed repaired in previous years, this is the first summer since 2019 that we have been open for the entire summer. During this coming offseason, we plan to do some renovations to the bathrooms as well as upgrade some of the patio furniture for next year.

We want to remind you that it is very important that golf carts stay on the cart path when around the greens and tees to limit compaction and matting down of grass. Please

remember to fix ball marks on the greens and fill divots with sand and seed. We love getting to see the community enjoy our wonderful golf course. If you have any questions or comments don't hesitate to stop me on the course or call me at the maintenance facility.

Thank You,  
Tucker Keyes
